The bankruptcy cases of Miller and Michaelsohn, which were filed yesterday, were still the talk of the streets to-day. The creditors of Miller are chiefly in the Northern cities, and excite little interest here. He was reputed to be a rich, merchant, good for all the debts he might create during the course of his business. Michaelsohn was not known as a capitalist, but some of the banks hold his paper with personal endorsers. The endorsers are not known as capitalist, and consequently it is a mystery where the notes he made, of which there is a long list, amounting to \$75,000, were discounted. He had sold out his business in Greensboro, and when he got on the train at Winston, yesterday, he had \$1.76! In a large pocketbook, in his hip pocket. When he reached Roanoke and alighted from the train, he felt a lightness in his pocket and reaching back, to his surprise, found the pocketbook gone. He went back on the train and made a thorough search without success. He reported his loss to the conductor, and as his last cent of money was gone, he looked around for a friend. He found one in Dr. J. T. Strickland, who advanced him some money and he went to a boarring-house. He was seen this morning but his appearance showed that he had passed a sleepless night. He is a young man of twenty-three years, with light auburn hadr. He says he was in the mercantile business with his father in Greensboro. N. The steamship S. V. Luckenbach is probably lost. Captain H. H. Williamson, agent of the Luckenbach Company in this city, believes that the missing steamer will never be seen again, and that she was blown to atoms by her explosive cargo of oil. The S. V. Luckenbach used oil as fuel instead of coal. In addition to this she was under contract to carry crude oil cargoes from the oll fields of Texas to the refineries of the North. This is considered so dangerous that it is practically impossible to secure insurance. It is not thought the miss-ing vessel carried any insurance, which, in event of her foundering, will mean a great pecuniary loss to the company.
